Notes to the Income statement**Note 1:**

Turnover improved in view of the higher level of sales activity for consumer electronics, particularly in China in the quarter despite declines seen in the Group's other businesses. Gross profit margin for the year, however, declined to about 4.1% from about 7.4% in the previous corresponding period due to a larger proportion of the gross profit arising from the low-margin consumer electronics business combined with the decline in contributions from the Group's manufacturing business and higher margin property business.

Note 2:

Other operating income of continuing operations comprises:

Total	(1,977)	(2,433)	(19)	(916)	(1,223)	(25)

- (i) Staff costs increased due to the higher headcount of sales and marketing personnel.
- (ii) Advertising charges declined due to lower advertising activity.
- (iii) Transportation and travelling expenses declined mainly due to cost reductions and reduced travelling by sales personnel.

Note 4:

Administration expenses of continuing operations comprises:

	S\$'000		% Increase / (Decrease)	S\$'000		% Increase / (Decrease)
	Six months ended			Three months ended		
	30 Jun 2008	30 Jun 2007		30 Jun 2008	30 Jun 2007

Total	(8,916)	(6,968)	28	(4,845)	(3,636)	33

- (i) Staff costs for the current quarter declined due to the lower headcount.
- (ii) Professional fees are lower in view of the absence of legal fees incurred in relation to cases that have been decided or under appeal.

THAKRAL CORPORATION LTD AND SUBSIDIARIES

- (iii) Travelling expenses rose due to additional travelling required of management and executive directors in relation to the ongoing business review.
- (iv) The net reversal of allowance for doubtful debts in the previous corresponding period relates primarily to recoveries from a related party.

Note 5:

Other operating expenses comprised depreciation charges for the periods.

Note 6:

Due to the continued under-performance of the Electronic Manufacturing Services ("EMS"), the Board has decided to cease its operations. Charges of S\$6.1 million have been made for the impairment of plant and machinery (S\$3.4 million), inventories (S\$0.2 million), trade receivables (S\$0.9 million) and other receivables (S\$0.2 million) and provisions for exit costs (S\$1.4 million).

Note 7:

Finance income declined substantially from the previous corresponding period mainly due to the lower interest rates received on the Group's fixed deposits.

Finance costs were lower compared to the previous corresponding period as a result of the redemption of all outstanding convertible bonds in the previous financial year.

Note 8:

Foreign exchange gain mainly arose from translation of monetary assets and liabilities, denominated in foreign currencies, outstanding as at the end of the period.

Note 9:

Group income tax for the current period arose mainly from the taxable profits at the Group's property development unit in Wujiang.

Note 10:

Notes to the Balance Sheet and Consolidated Cash Flow Statement

Note 1:

Inventories increased marginally to S\$25.8 million as at 30 June 2008 from S\$25.2 million as at 31 December 2007 mainly due to the increased stocking of consumer electronics products to support a higher volume of sales.

Note 2:

Trade receivables decreased to S\$37.6 million as at 30 June 2008 from S\$43.0 million as at 31 December 2007 due to improved collections.

Note 3:

Property, plant and equipment declined to S\$9.8 million as at 30 June 2008 from S\$14.7 million as at 31 December 2007 primarily due to the impairment charge of S\$3.4 million made against the plant and machinery of the EMS business.

Note 4:

Available-for-sale investments decreased due to the significant decline in fair values of the investments arising from the continuing instability in global equity markets.

Note 5:

Reserves (particulars of which are in Note 1(d)(i) below) reduced substantially in the current half year primarily due to the significant decline in the fair values of the Group's available-for-sale investments as a result of the continuing volatility in global equity markets as well as the impairment charges and provisions for the EMS business.

1(d)(i) A statement (for the issuer and group) showing either (i) all changes in equity or (ii) changes in equity other than those arising from capitalisation issues and distributions to shareholders, together with a comparative statement for the corresponding period of the immediately preceding financial year

THAKRAL CORPORATION LTD AND SUBSIDIARIES

Basic loss per share is computed on the loss for the period after taxation and deduction of minority interests divided by 2,612,113,668 being the weighted average number of shares in issue during the six months and quarter ended 30 June 2008. Basic earning per share is computed on the profit for the period after taxation and deduction of minority interests divided by 2,470,770,117 and 2,471,097,405 being the weighted average number of shares in issue during the six months and quarter ended 30 June 2007 respectively.

Fully diluted loss per share for the six months and the quarter ended 30 June 2008 is computed on the loss after taxation and deduction of minority interests divided by 2,612,113,668 being the weighted average number of shares in issue during the period. Employee share options to purchase 6,880,000 ordinary shares at S\$0.06 were outstanding as at 30 June 2008 but were not included in the computation of the diluted loss per share because these options were antidilutive. The options expire on 6 April 2013.

Fully diluted earnings per share for the period ended 30 June 2007 is computed on the profit after taxation and deduction of minority interests divided by 2,559,405,491 and 2,562,885,075 being the weighted average number of shares in issue during the six months and the quarter ended 30 June 2007 respectively, 4,611,364 and 7,763,660 shares being the dilutive effect of potentially exercisable options outstanding as at that date for the six months and the quarter ended 30 June 2007 respectively, and 84,024,010 shares being the dilutive effect of the convertible bonds outstanding as at the date.

The review must discuss any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors.

It must also discuss any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on.

Review – half year ended 30 June 2008

Turnover & Profitability

Group revenue for the half-year ended 30 June 2008 increased 32% to S\$180.2 million from the S\$136.6 million achieved in the corresponding previous period. The increase was achieved by the Supply Chain Management ("SCM") segment which offset the declines seen in the Group's other businesses. The SCM business in China continues to see growth from its diversified brand portfolio, though margins remain thin. Sales at the SCM segment for the half-year were S\$173.2 million, an increase of 49% over the previous corresponding period.

The Electronic Manufacturing Services ("EMS") division experienced a 63% drop in revenue to S\$4.7 million for the half-year, down from the S\$12.6 million achieved in the previous corresponding period. This unit has been affected by a significant slowdown in export orders to the USA and rising labor, energy and transportation costs in the PRC. Due to the continued poor performance of this unit, the Board has decided to cease its operations. Charges amounting to S\$6.1 million have been made for the impairment of assets and provisions.

At the property division in Wujiang, measures introduced by the PRC government to cool the mainland property market continued to virtually eliminate all signs of sales activity. Revenues at this unit were S\$0.7 million in the current half-year as compared to S\$6.1 million in the previous corresponding period, a decline of 88%.

The major earthquake in the Sichuan province in May also adversely affected the performance of the Group's digital video compression card unit in Chengdu, which saw its revenue slide by more than half in the period under consideration.

THAKRAL CORPORATION LTD AND SUBSIDIARIES

Group gross profit margin in the current half-year was 4.1% as compared to 7.4% in the previous corresponding period. The absence of any meaningful contribution from the high margin property sales at Wujiang accounts for the significant drop in gross margin since the SCM segment operates on very thin margins. The gross profit from the property business was only S\$0.38 million as against S\$2.65 million during the previous corresponding period. The gross profit earned by the EMS division also decreased very significantly as compared to the previous corresponding period. As a result, the Group achieved gross profits of S\$7.5 million for the current half-year as against S\$10.1 million in the previous corresponding period.

Other income declined by 44% to S\$0.7 million from the S\$1.2 million in the previous corresponding period. This was due to lower asset sales in the current year.

Foreign exchange gains mainly from the translation of monetary assets and liabilities denominated in foreign currencies amounted to S\$1.4 million in the current half year, a reduction of 25% from the S\$1.9 million recorded in the previous corresponding period.

For the Group's discontinued Home Entertainment Division, reversals of impairment charges and provisions were made primarily in respect of recoveries against current assets that were fully provided for, resulting in the business recording a profit of S\$0.8 million for the quarter.

For the half year ended 30 June 2008, the Group incurred a net loss after tax of S\$6.6 million, including the impairment charges and provisions for EMS of S\$6.1 million, as compared to a profit of S\$2.4 million in the previous corresponding period.

Expenses

Operating expenses continued to be kept under control. Administration expenses in the previous year had included the reversal of S\$2.0 million of allowances in respect of an amount recovered from a related party in that period. This did not recur in the current period. Furthermore, impairment charges and provisions for EMS of S\$6.1 million and provisions for doubtful debts of S\$0.2 million were made in the current period. Excluding the effect of provisions and the reversal of provisions, the actual operating expenses declined by about 7% in the current half-year.

Finance income declined substantially by 44% from the previous corresponding period mainly due to the lower interest rates received on the Group's fixed deposits.

Finance costs also declined significantly by 48%, mainly due to the redemption of the Group's convertible bonds in November 2007.

Group income tax declined substantially to S\$0.07 million from S\$1.1 million in the previous corresponding period due to the lower profits at the Group's property unit in Wujiang.

Working Capital and Cash Flow

Inventories increased marginally by 2% to S\$25.8 million as compared to S\$25.2 million as at 31 December 2007 while trade receivables declined by 12% to S\$37.6 million from S\$43.0 million as at 31 December 2007. This reduction was in spite of the higher level of sales during the current period. Other receivables increased by 26% to S\$9.5 million from S\$7.5 million as at 31 December 2007 principally due to an increase in advances to suppliers for the purchase of goods.

The Group saw a net operational cash inflow of about S\$1.0 million as compared to an outflow of S\$1.5 million in the previous corresponding period. This was principally from the reduction of its trade receivables during the current period.

Net Asset Value

As a result of the continuing volatility in global equity markets, the value of the Group's available-for-sale investments declined substantially in the current half year by around 46%. This, together with the impairment charges and provisions for the EMS business, has resulted in a decline in the net asset value of the Group to 8.43 cents from 10.25 cents at the end of the previous financial year.

Performance Summary

Supply Chain Management ("SCM")

The SCM segment expanded its revenues by 49% to S\$173.2 million in the latest half-year as against S\$116.3 million achieved in the previous corresponding period. The segmental loss declined to S\$2.0 million in the current period from the loss of S\$3.3 million incurred in the previous corresponding period, after excluding the reversal of provisions upon recoveries from a related party.

Competition in this segment continues to remain intense and margins are thin.

Electronic Manufacturing Services ("EMS")

The EMS unit has been significantly affected by the slowdown in demand from its major customers, several of which are located in the U.S., and consequently saw revenues slide by 63% to S\$4.7 million in the current period as compared to S\$12.6 million in the previous corresponding period. Rising operational costs in the PRC in terms of local procurement, wages, energy, transportation, rental and other costs have significantly eroded the profitability of the unit's operations. The capacity utilization of the production lines has been low.

The Board has decided to cease this business and accordingly charges amounting to S\$6.1 million have been made for the impairment of assets and provisions. Segmental loss, excluding this impairment of assets and provisions, widened to S\$2.0 million in the latest half year from S\$0.5 million in the previous corresponding period.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results

The Group's operational performance in the quarter met management's expectations.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

Efforts to expand the brand and product portfolio for the SCM segment and to increase sales and improve margins for the existing brands are ongoing. The division continues to expand its distribution network in China, with added focus on developing markets like India and Indo-China. However, due to the intense competition and thin margins, the Group expects to continue operating under difficult market conditions in the current financial year.

Continuing instability in the global financial markets may lead to fluctuations in the value of the Group's investments in India and Australia and consequently in the Group's net asset value.

The Company made an announcement on the divestment of its core business on 20 May 2008, the review of which is still in progress.
